Agenda Text:

The Board is requested to recognize Eddie Culberson, Director of the Durham Soil & Water Conservation District (SWCD) for having been selected to receive the “Professional Achievement in Water Quality” award by the Hugh Hammond Bennett Chapter of the Soil & Water Conservation Society.

The Soil and Water Conservation Society (SWCS) is a national nonprofit scientific and educational organization founded in 1943 that serves as an advocate for conservation professionals and for science-based conservation practice, programs, and policy. In 1935, Mr. Hugh Hammond Bennett, a North Carolina native, was nominated by the Roosevelt Administration as the first Chief of the United States Department of Agriculture’s Soil Conservation Service (SCS), now known as the Natural Resources Conservation Service (NRCS). Fittingly, the Hugh Hammond Bennett Chapter of the SWCS is the North Carolina affiliate of the SWCS.

Mr. Culberson was nominated for the Hugh Hammond Bennett Chapter’s “Professional Achievement in Water Quality” award based on the body of work of the Durham SWCD related to water quality improvements including stream restorations, technical assistance to the agricultural community to improve/protect water quality, and associated work he has led on behalf of the SWCD. Additional qualifying elements for this nomination and award were his recognition of the changes in Durham County related to growth and development and growth and the concurrent need to re-direct SWCD efforts from the traditional rural-agricultural base model to more fully serve community conservation needs.

Alignment with Strategic Plan: Goal 4 - Environmental Stewardship and Community Prosperity.

Budget Ordinance Amendment No. 18BCC000031 to Recognize UNC SoG and NC LGISA Award Funds to the Information Services and Technology Department for Demonstrating World-Class IT Effectiveness for the Court Reminder App with CJRC

Agenda Text:

The Board is requested to approve Budget Ordinance Amendment No. 18BCC000031 to recognize \$10,000 for the Government Innovation Grant Award (GIGa) received by Durham County's Information Services and Technology (IS&T) department, late last year for the Court Reminder Application, developed in coordination with the Durham County Criminal Justice Resource Center (CJRC).

At any given time, approximately 10% of inmates in the Durham County Detention Center are there because they failed to appear in court. There are several reasons why individuals miss a court date. Many simply forgot. Failure to appear in court charges often result in jail stays for low-level crimes. Frequently, those jailed cannot afford bond. Job loss and other negative consequences often follow jail time. For an overburdened court system, it means rescheduling the cases and unnecessary delays in adjudication.

The Durham County Court Date Reminder Service allows any individual with an upcoming court date to register on line for reminders as the court date approaches. The reminders can be text, email, voicemail or any combination. Reminders are sent 72 hours and 24 hours in advance of the court date. Registration only takes a few moments. Once the court date has passed, the user will no longer receive notifications of that event. The user may opt out of the notification system any time they choose.

In late 2017, IS&T was awarded first place in the University of North Carolina School of Government & North Carolina Local Government Information Systems Association GIGa program for the county's Court Reminder Application, highlighting the work done with CJRC. This award comes with a \$10,000 grant sponsored by the Local Government Federal Credit Union, which will be shared between the two County departments, \$5,000 each.

Your recognition of these achievements made by the entire staff of IS&T and CJRC is appreciated!

Alignment with Strategic Plan: Goal 5: Accountable, Efficient and Visionary

Government by providing collaborative leadership, exceptional customer service, innovation, transparency and fiscal responsibility.

Resource Persons: Greg Marrow, Chief Information Officer

County Manager's Recommendation: The County Manager recommends that the Board approve Budget Ordinance Amendment No. 18BCC000031 to recognize \$10,000 from UNC SoG and NC LGISA for the GIGa award received by Durham County's IS&T department and CJRC for the Court Reminder Application.

Design Services for Aeration System Enhancements for the Triangle Wastewater Treatment Plant Amendment

Agenda Text:

The Board is requested to authorize the County Manager to enter into a contract amendment to increase the existing design consultant contract with Black & Veatch International Company (FR# 17-832) for Aeration System Enhancements for the Triangle Wastewater Treatment Plant in the amount of \$34,500, bringing the total contract amount from \$213,000 to \$247,500.

Background:

Black & Veatch International Company (B&V) is providing engineering services for the upgrade of the Triangle Wastewater Treatment Plant (TWWTP) Aeration System. The upgrade includes the installation of a diffused aeration system in oxidation ditch number two consisting of two 125 horsepower blowers with variable frequency drives and two membrane disc diffuser grids. The Black and Veatch TWWTP Aeration System Improvement Technical Memorandum completed in May 2017 served as the outline for these improvements (Attachment A). Services provided by Black and Veatch International Company include preparation of the plans and specifications, construction inspection, approvals/permitting, construction administration, and record drawing preparation.

The amendment will cover two changes in scope: (1) Attachment B reflects changes in the electrical and control design such that the existing dissolved oxygen probe will be able to control the new positive displacement blowers; and (2) Attachment C reflects additional changes in the electrical and control design for the installation of an additional dissolved oxygen probe and relocation of the existing dissolved oxygen probe to provide greater operator control over the new displacement blowers. These changes will allow greater operational control by TWWTP staff resulting in potential energy savings and optimized nutrient removal.

Engineering design costs for the TWWTP Aeration System Enhancements Amendment are estimated to be \$34,500. Once this design process is completed, the subsequent construction project to implement the improvements will be funded from the Enterprise Fund.

In review of the MWBE compliance for the Amendment to RFQ 17-012 TWWTP

Efficiency and Resiliency Improvements, Black & Veatch International Company will be utilizing Milhouse Engineering verified as MWBE certified African-American firm and is expected to achieve up to 59.67% MWBE participation used on this project. The MWBE Compliance Review form is provided as Attachment D.

Alignment with Strategic Plan: This action is in accordance with Durham County Strategic Plan Goal 4: “Environmental Stewardship and Community Prosperity,” as this project will ensure a clean environment by restoring oxidation ditch number two to its original treatment capacity. Additionally, the transition from mechanical surface aeration to diffused aeration with dissolved oxygen control should result in reduced energy usage at the TWWTP.

Resolution to Support Women’s Health

Agenda Text:

The Board is requested to adopt a resolution calling on the federal government to repeal the Hyde Amendment, a federal budget provision that bars Medicaid recipients from using their insurance to access abortion care (except in very limited circumstances).

The Hyde Amendment, first passed by Congress in 1976, bans Medicaid coverage of abortion. Federal law also prohibits insurance coverage of abortion for women who qualify for other government-sponsored insurance programs, including women enrolled in Medicare, veterans and active members of the military, federal employees, Native American women, women in federal prison, and women who serve in the Peace Corps. As a result of the Hyde Amendment and similar restrictions, nearly 29 million women of reproductive age do not have insurance coverage for abortion.
