**Subject:** Notification to Industry 8/7/19: Durham County Utilities Development Review

**NOTIFICATION**

Due to staffing limitations and an influx of development projects in the Durham County service area, development review (i.e. construction plans, sewer video, as-builts) is 4 to 6 weeks behind the usual review timeframe. Durham County Utilities is actively working to fill the vacant positions to ensure all projects are taken care of in a timely and efficient manner. As it is standard process to review projects in the order in which they are received, please ensure all necessary documents meet Durham County standards and are submitted together. This will limit the number of reviews required and ensure faster turnaround times. We appreciate your patience and understanding as we work through this transition.
